SUBSCRIPTION \$2.00

## Regular Meeting Town Council

The regular June meeting of the town council was held with Mayor Colpoyn and Councillors R. K. Hunter E. Bolinger, W. Pettit, U. A. Jones, Ross Fiddis. Frank Michael was unable to attend as he was ill.

The minutes of the previous meeting were read and it was moved that the minutes be adopted with the following corrections: the third last reading of bylaw 440 be deleted and the words "connection and pipe" be added to the resolution of Ross Fiddis regarding the application of the Latter Day Saints for irrigation.

The council opened the tenders submitted for the building at the old swimming pool site. Two tenders had been received. The members of the council had been informed that the Chamber of Commerce wished to remove this building to their fair grounds. As the Chamber of Commerce had built this building as a dressing room at the swimming pool it was finally decided not to accept either of the tenders and allow the Chamber of Commerce to remove the building as suggested. The following resolution was moved by Councillor E. Bolinger and carried:

That neither of these tenders be accepted, and that in view of the fact that the Chamber of Commerce wish to remove the swimming pool building to the fair grounds, authority be hereby given to do so.

The application of Wheatland School Division for irrigation service at the Gleichen school was granted. The secretary's bond was presented to the council for approval. The report of the R.C. M.P. for the month of May was read and accepted and ordered filed.

The secretary's financial report for the month of May was accepted and ordered incorporated in the minutes. The disposal of garbage was tabled until the next meeting. There was no report on sewer connections by the sewer committee.

The accounts received were referred to the finance committee and if found correct were ordered paid.

The application of Ed. Babitzke to conduct a taxi service in the town was approved.

## Vacation Days

That happy period of childhood, the mid-summer school holidays is near at hand. With shouts of joy laughter and on running feet the boys and girls will announce to all the world "School's out" and they will toss their books aside to be forgotten for a couple of months.

In these later days much is heard of shorter working hours, more leisure for the workers of the world, and all kinds of proposals are advanced as to how those leisure hours may be spent in order that they may prove a blessing rather than a drawback in the development of a better type of citizen; in order that they may add to the pleasure and true enjoyment of life rather than tend towards pure idleness and even slothfulness.

Now, with two months of absence from school for their children, what are Canadian parents planning for these energetic boys and girls, to keep them out of mischief and to make this vacation time freed from study wholly beneficial and an asset which will prove of value in better health, clearer minds, and a most wholesome outlook on life, in a word, prepare these citizens of the future to return to the school rooms some weeks hence keen for another period of study and preparation for life?

Older boys and girls are already home from college, annual church conferences and assemblies have been held, nurses' graduation from hospitals are completed, examinations of all kinds are nearing an end, teachers, too, will be free of their duties, and in town and city the quiet time in business is at hand. Then the

older generation is able to devote more time and more thought to making these happy days of childhood a real joy and blessing not only to the children but to themselves.

Fortunately it does not cost much in money to give children a good time a happy holiday. Fortunately we are blessed by nature with almost innumerable beauty spots for holiday purposes. There is not a province in Canada which does not abound in lakes large and small; summer resorts and camping grounds are numerous, places to camp and picnic are to be found in easily accessible places. Full advantage should be taken of these to provide outings for the boys and girls, even though individual circumstances may make such outings of brief duration.

In summer time especially Canada is a land for out-of-doors. Get the boys and girls out in the open, and keep them there as much as possible. They are in school rooms and stay up in houses in the winter time for long months of the year; they need the health giving properties of the sun throughout the summer holiday season, the clean, invigorating fresh air, the delights of forest and lake. Get them as close as possible to nature in her happiest moods and most beautiful dress.

And make these vacation days of lasting benefit in other ways. See that the boys and girls are taught to swim. It is little less than a crime that so many boys and girls never learn to swim, and so many tragedies result, which are so easily preventable.

Unconsciously, too, the work of the school room can be carried forward. Powers of observation can be developed and strengthened during vacation days spent in the open, habits of cleanliness, neatness, orderliness, can be made part of camp and holiday life, and accepted as part of the fun which will stand children in good stead in future years; initiative, ideas in handicrafts, resort to simple invention to meet the lack of usual equipment at home—all of these things mean a greater all-round development of character.

An elaborately organized holiday is not necessary, neither should much expense be entailed. Get out with the children and rough it for a while. They will enjoy it just as much, perhaps more, than an expensive trip or outing where everything is planned and arranged for them. To a large extent the boys and girls should do a full share of the camp or holiday work. Properly organized and time systematically divided between these duties and the hours of play, boys and girls will enjoy and benefit from doing the camp chores.

## WEDDING

PLANTE-MORRISON

The Medicine Hat Presbyterian Church was the scene of a late afternoon wedding recently when Miss Margaret Joyce Morrison, the only daughter of Mr. and Mrs. Ralph Morrison of Medicine Hat, became the bride of Mr. Laurence Martin Plante, son of Mr. and Mrs. A. Plante of Gleichen. Rev. Taylor was the officiating clergyman.

The bride who was given in marriage by her father was dressed in a charcoal suit with pink accessories. She wore a corsage of pink sweet heart roses.

The bride's attendant was Miss Lois Rabb of Medicine Hat. She wore a corsage of red roses.

The groom was attended by Mr. Richard Haskayne of Gleichen. After the wedding a reception was held at the home of the bride's parents.

The happy couple left for Spokane, Wash., for their honeymoon. On their return they will reside in Olds.

Out of town guests were: Mr. and Mrs. Geo. Yule and Harvey Cummings of Stander; Mr. and Mrs. Glen Yule, Mr. and Mrs. U. A. Jones, Mr. and Mrs. Geo. Brooks, Mr. Armand Corbiel, Jack Souter, Leo Woods, Andy Johnson, of Gleichen and Mr. Tom Morrison of Calgary.

## Town And District

Ed. Babitzke has taken over the taxi business run for years by R. K. Hunter and will operate the taxi himself.

Mr. and Mrs. Frank Michael have left by car for the Pacific Coast and interior parts of British Columbia for a holiday. They will be away about ten days.

A soft ball game Monday evening between town girls and old time baseball players resulted in a win for the latter. The old time baseball players really worked hard to beat the girls.

The Blackfoot Western Jamboree drew a huge crowd, which was held in the Crowfoot Hall last Friday evening. The show featured George Fox and Eds Bow River Ramblers. Miss Joyce Collins of Gleichen appeared as a special guest on the show. The motor rug was won by Jack Fontaine, Gleichen. The bed spread was won by Mrs. Paul Wolf Collier, Cluny.

## Tariffs And Trade

The letters G.A.T.T. stand for the General Agreement on Tariffs and Trade. At the end of World War II, the governments of some 30 peace loving nations agreed to reduce barriers to trade and to follow fair trading rules.

In the 1930's many countries, including Canada, tried to lessen unemployment by putting on high tariff barriers or preventing

goods coming in under any circumstances. This did not lessen unemployment. It added to it and 'GATT' was worked out and agreed upon to prevent the return of widespread depression.

Canada must trade with other nations as wheat, lumber, minerals, etc., must be sold abroad and cotton, tropical fruits and other things must be imported. The price of the products we export depends on the price that can be obtained abroad as, at least, a fifth of the national income comes from the export trade and, Canada, therefore has been in 'GATT'.

Canadians have had to take action against dumping of agricultural products that were coming in from the country of origin as subsidized exports. The agreement in a general way, has worked out very well.

The Department of Trade and Commerce have 100 Trade Commissioners in 50 posts in various parts of the world to promote the sale of Canadian goods. Good results are being obtained because in spite of some variations, the export trade of Canada since the end of the war has been greater than ever before. It has been predicted time and again that a depression was just around the corner but it has not come. In fact, the export trade during the last six months has been greater than ever before in any six month period. Canada is selling more—both to the U.S.A. and Britain.

There remains much to be done as world problems are not settled but if the quality of our goods can be kept up and if we can produce the kind of goods our cus-

tomers want and keep up our efforts to promote trade, we can get our share of the business. World trade must be so planned that our customers earn enough to buy what we have to sell and, for that reason, Canada and other fortunate countries must help and are helping the two-thirds of the world's people who go to bed hungry every night.

## FROM THE FILES OF THE CALL TWENTY YEARS AGO

Miss Isabella Bates of Kimberley is spending a few days here visiting her uncle Thos. Bates and family.

In the beautiful setting of A. R. Yates garden the Girl Guides held a strawberry festival last week.

Mrs. J. Guttman and family of Calgary spent the weekend visiting Mr. Guttman.

Mr. and Mrs. Birch and family and Max Yates spent Sunday and Monday at Rockyford taking in the tennis tournament held there. It was Mr. Birch who started the tennis craze in Rockyford when he lived there several years ago.

Monday was a great day in the lives of the Gleichen Cubs, Scouts and Girl Guides when they went by special train to Calgary to meet the chief scout. The Blackfoot Indian Scouts and Guides, with their Indian dances in the centre of the arena "stole the show". That is what Gleichen people think since the big crowd showed great interest in the performance.

## B.V.C. High School Wins Championship

Bow Valley Central High School base ball club won the High School championship of 1955 from the teams of Strathmore, Standard and Carlsland.

The final game of the playoff came after Bow Valley Central tied with Strathmore for top position. This game resulted in a score of 22-3 for the locals.

Vic Luciak pitched the first 7 innings for the locals being relieved by Doug Wilson. Jim Brown was the catcher.

## Baseball Results

In the Bow Valley League last Sunday Gleichen split a double header with Shepard. McPhee pitched the full nine innings of the first game to give Gleichen a 9-3 win. Jim Brown catching. In the second game Jim Harrigan pitched Shepard to a 17-3 win over the local boys.

Strathmore and Odgen are bunched at the top of the league.

The league has created much interest among baseball fans. Sunday some 70 cars were counted surrounding the ball diamond.

Odgen will be here next Sunday to play the locals. The first game is billed for 1:30 p.m. and the second at 4 p.m.

Ottawa collects about twelve million dollars a week through sales tax on goods manufactured in Canada.

*Such a pleasant  
way to travel the  
road to success*

DeSoto Firefly sedan with dramatic two-tone colour sweep . . . mighty 200-h.p. V-8 engine that set a new world's record this Spring in the "Flying Mile" competition, sponsored by the National Association of Stock Car Racing at Daytona Beach, Florida.

Prestige is but one of several reasons why men on the way up are choosing DeSoto.

It's a mark of distinction to own this beautifully new automobile. But, more than that, the sleek motion-design of the new De Soto gives it The Forward Look—the fresh, exciting styling that so perfectly fits the tempo of today!

This thrilling performer is also a delight to com-

mand—nimble, easy to handle, and powered by a mighty 185- or 200-h.p. V-8 engine. And although many other cars are higher in price, no other Canadian automobile has a wider or roomier body than this luxurious beauty! It's truly the smartest choice you can make.

Your Dodge-DeSoto dealer will be glad to arrange a demonstration drive. You'll see why it's a wise move to move up to DeSoto.

## Novel scrapbook at Museum on N.W.T. exhibition of 1895

REGINA.—A novel newspaper scrapbook on the North West Territories exhibition held in Regina in 1895 will soon be among the displays to be seen in the Provincial Museum of Natural History. Dr. Lewis Thomas, provincial Archivist, who received the scrapbook from the estate of the late Brigadier General F. W. E. Burnham, formerly of Arrow Lakes, B.C., has announced.

The exhibition, which Dr. Thomas says has not been duplicated since, except for the World Grain Show, was under the management of Lieutenant Governor of the North West Territories, C. H. Mackintosh. The scrapbook was prepared in the governor's office by his secretary.

### Caledonian sports

The scrapbook contains newspaper clippings, advertising posters, an official souvenir program, and copies of program for such events as exhibits, bicycle and horse races, Caledonian sports, polo tournaments, lacrosse, bull train and dog driving, trapshooting, broncho breaking, football, and many other competitions.

The newspaper clippings were gleaned from papers throughout Alberta, Assiniboia, and Saskatchewan, as well as from many American farm journals. The scrapbook also contains a plan of the exhibition grounds and illustrations of the buildings. There was a two-storey main building, two bandstands, a 1,200 seat grandstand, a platform, "the fastest half-mile track in Canada," three water wells and two

windmill pumps among other things. The present Regina exhibition property dates from this period.

The newspapers of the time carried divergent views on the ambitious exhibition. Articles in the scrapbook range from the complimentary to the strongly critical. Calgary papers charged officials with "boodling" and waste.

Governor General Lord Aberdeen was present to open the exhibition which ran from July 29 to August 7. An estimated \$19,000 in prizes was given out and gold and silver medals and diplomas for exhibits of cereals, farm products, horses and cattle, etc.

The scrapbook indicates that the basic idea behind the Territorial Exhibition was to publicize the produce of the North-West and to encourage by competition the raising of better types of animals and grains. Over 900 head of stock were on exhibit.

## Auto liability limits boosted in Manitoba

Announcement of a boost in policy limits on automobile insurance, with no extra cost to the buyer, has been warmly received by the Manitoba government, according to Hon. Chas. L. Shuttleworth, minister of Public Utilities.

Under new regulations insurance companies in Manitoba, Public liability limits are to be increased from \$5,000 to \$10,000 for one person killed or injured. Similarly, liability limits for two or more persons killed or injured will jump from \$10,000 to \$20,000. The change will go into effect July 1.

"The increase fits in with legislation passed during the last session of the Manitoba government," said Mr. Shuttleworth. "Under an amendment to the Insurance Act, doubled policy limits are mandatory as of July 1, 1956. With insurance companies making the new limits available a year ahead of time, however, car owners will not be obliged to change their policies mid-term."

Mr. Shuttleworth said further that it is a source of satisfaction to the government that limits are being doubled at no extra cost to the car owner.

This reduction in price, the minister commented, is in large part due to Manitoba's highway safety program, which has been instrumental in reducing accidents on provincial roads. He added that Manitoba leads the other Canadian provinces in increasing auto liability limits.

## Stains often make floors look worn

Persistent stains often make even the shiniest floor look worn and marked. Quick action following an "accident" might save the day.

Eileen M. Crowther, Home Designing Specialist with the Alberta Department of Agriculture, has the following suggestions to make regarding removing stains on wood floors:

To remove grease stains or spots from wood floors, add one tablespoon of ammonia to two quarts of hot soapy water.

Remove iodine stains with wood alcohol or with a weak solution of household ammonia.

Mercurochrome stains may be removed with a weak vinegar solution.

Paint stains may be removed with turpentine, any regular cleaning fluid or one of the preparations made for the purpose.

Marks on linoleum made from composition soles or heels may be removed by wiping with a cloth moistened with any kerosene or good cleaning fluid.

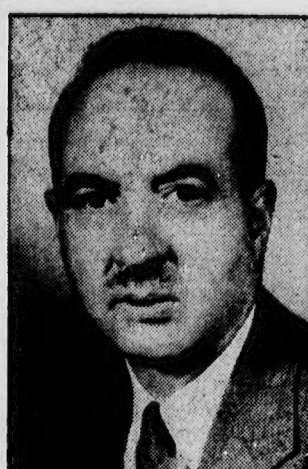

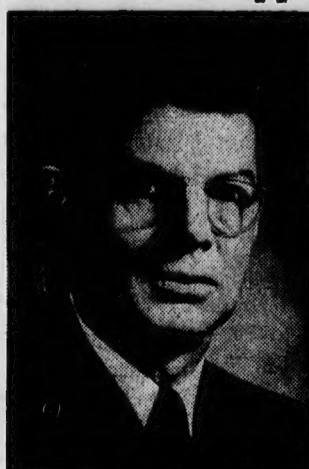

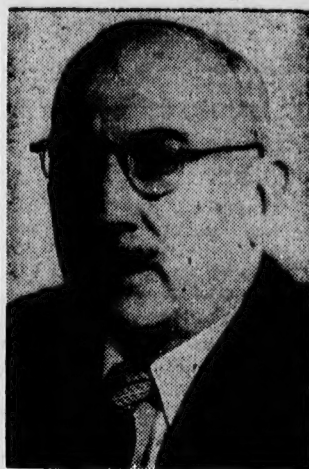

A trick to remember when grease is spilt is to rub a piece of ice over the stain. This will harden the grease and prevent it soaking through.

### Broken glass

Broken glass or china, tossed away carelessly, may cause dangerous wounds to those who inadvertently handle it. Such pieces should never be tossed into a wastebasket or garbage container without being put into a container, wrapped and tied and then labelled as "Broken glass"; otherwise, workers handling such waste may be severely cut.

A fathometer is used by ships to measure the depth of water.

## Experimental farms appointments

Dr. C. H. Goulden, left, has been appointed Director, Experimental Farms Service, Canada department of Agriculture, following the retirement of Dr. E. S. Hopkins. Dr. J. C. Woodward, centre, formerly Chief of the Chemistry Division, has been appointed Associate Director. Dr. D. G. Hamilton, right, succeeds Dr. Goulden as Chief of the Cereal Division.

## Cutworm menace being fought

REGINA.—Army cutworms, first reported from southwestern Saskatchewan at the end of last week, have now infested upward of 20,000 acres of cropland, according to R. E. McKenzie, director of the agriculture department Plant Industry branch.

"The infestation is confined to the Val Marie, Climax, Eastend, Shaunavon area and reports are still being sent to the agricultural representative for the district," said Mr. McKenzie. "The dieldrin poison shipped to the area by the department appears to be giving good results on the earlier infested fields, either producing immediate kills or slowing up damage."

To date over 4,000 acres have been sprayed and some of the first fields sprayed are showing signs of recovery. The infestation corresponds to that area which was hailed out last year. On these

fields little fall cultivation was done and green growth in the fall provided food for the young worms.

"We expect feeding to cease shortly," said the director, as the worms become full grown and go into cocoons. Eventual losses will depend on moisture, for if the present state is continued, crop recovery may be good. On some badly damaged fields reseeding has already begun."

## \$40 Million cable project spans ocean

NEWINGTON, N.H.—Workmen today are in the first phase of a \$40,000,000 project to link North America and Britain with the world's first trans-oceanic telephone cable, states an Associated Press story.

When the project is completed, expected in the summer of 1956, 2,000 miles of cable will stretch from Newfoundland to Scotland under the Atlantic ocean, which in places is 2½ miles deep.

The cable will contain 36 conversation circuits, 30 from Anglo-American calls and the rest for calls between Canada and England. That almost triples the present radio-telephone capacity.

The cable is expected to do away with the poor connections, electrical disturbances and the voice fading experienced in the present radio-telephone circuits.

The British cable-laying ship Monarch, with a crew of 130, is loading its first consignment of the underwater link at the Simplex Wire and Cable Co. plant here. The Monarch leaves for Clarenville, Nfld., where the actual cable-laying work is due to get under way June 22.

## Bed without supper

A common punishment that was often inflicted before people realized the importance of food to a child's growth, was to send Junior to bed without his supper as a penalty for some misdeed. Today, the average mother realizes that a child's health rather than his conscience may be affected by depriving him of necessary proteins, minerals and vitamins. Cutting out some favorite special dessert or candy in this case, the lost food values should be compensated for in the rest of his meal.

### FINE FURS

The sable, prize fur-bearing member of the weasel family, is the Russian counterpart of the Canadian marten.

## Banks constructed to thwart crime

That new bank on the corner, sparkling with glass and stainless steel, is no pushover, says Vincent Egan in The Financial Post.

With its glass doors and floor-to-ceiling windows on the outside, its open counters and absence of partitions on the inside, it undoubtedly helps to beautify the community. But don't be deceived by its air of openness. Chances are it's much more bandit-proof than the old fortress-like branch down the street.

It's true that the old banks look more secure, with their heavy bars, ornate grill-work and massive stonework. But for the burglar and the hold-up man, they provided near-perfect opportunities to work unnoticed. For bank staffs, they encouraged a Maginot Line mentality.

Today's modernistic bank is no sitting duck. Besides having the latest in built-in safety devices, its general architecture is designed partly to make the criminals' job as tough as possible.

Canadians are still the world's greatest telephone conversationalists. During 1953—latest figures available—Canadians averaged 411 conversations each.

## Do You Know That . . .

Canada's crude oil production today is more than 200 thousand barrels a day.

There are about 4,400 species of mammals.

## DON'T USE PURPLE FUELS IN YOUR MOTOR VEHICLE

THE FUEL PETROLEUM PRODUCTS ACT has been amended changing the penalty for operating a motor vehicle with purple fuel.

## The NEW PENALTY is effective JULY 1, 1955

. . . and provides for a fine of not less than \$25.00 nor more than \$100.00 and IMPOUNDMENT of the motor vehicle for a period of not less than seven days in the case of a first offence, or fourteen days in the case of a second or subsequent offence, or until the fine and costs, including the cost of impounding are paid, whichever is the longer period.

## ITCH STOPPED IN A JIFFY

Very first use of soothing, cooling liquid D.D.D. Prescription positively relieves itchy skin—caused by eczema, rashes, scalp irritation, chafing—other itchy troubles. Greaseless, stainless. 39¢ trial bottle must satisfy or money back. Don't suffer. Ask your druggist for D.D.D. PRESCRIPTION.

## Home Workshop

This cart beats a wheelbarrow when doing the chores around the homestead. For example, it may be tipped up to rest the front on the ground so grass clippings may be raked into it. The deep hopper holds a lot of litter meaning fewer trips to the compost heap. Having two wheels and a broad base it is easier to handle than a barrow. Eight-inch disk wheels would be better than the wooden ones shown in the sketch. When the garden is cleaned up for the winter just remove the wing nuts and hang the cart in an out-of-the-way corner of the garage. The pattern is 35c of it will be included in the Gardeners' Helpers Packet for five standard size patterns for \$1.50 postpaid.

Whether one is planning a new house or doing over the outside of a used house, shutters afford an interesting feature if the style is well chosen. They may be used for decoration only or may be hinged to open and close easily. The twelve designs differ both in the decorative cut-outs and construction. From this wide assortment of styles something appropriate can be found for the house in town, country or at the shore. Actual-size cutting guides are given for both open-work and overlay designs. With your order for the shutter pattern at 35c also include \$1.50 for the Homestead Improvement packet of five patterns for valuable outdoor improvements.

## Patterns Jiffy-Knit!

by Alice Brooks

Give an old chair a new look with this smart, fan-shaped chair-set. It's JIFFY-KNIT, trimmed with crocheted edging.

Knitting Pattern 7131: (Chair-back, 14x19; arm-rest, 6x12½ ins. in heavy 4-ply cotton. Chain loop edging is crocheted.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Department P.P.L.,  
Household Arts Department,  
60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

ORDER our 1955 Alice Brooks Needlecraft Catalogue. Enjoy pages and pages of exciting new designs — knitting, crochet, embroidery, iron-ons, toys and novelties! Send 25 cents for your copy of this wonderful book now. You'll want to order every design in it!

### PEGGY

—By Chuck Thurston

## OUR COMPLETE SHORT STORY—

## THE LUCKIEST MAN

By VALERIE CULLEN

THESE good luck coins are a lot of foolishness," Dan muttered to the waitress by his side. "Generally a customer passes on at least one a day to me. I should be the luckiest man alive according to that, but I'm not."

It was closing time, and Dan, a lean, not unattractive man in his early thirties, was estimating the day's profits at the restaurant's cash register. In the soft darkness outside twinkling neon lights had one by one flashed on.

The one customer left, a nondescript young man, sat nervously smoking a cigarette, flicking the ashes too frequently, and watching the outside street intently.

Irritated by Della's indulgent smile, Dan continued, "Look at these old Indian head pennies. And here are some French and English coins—useful souvenirs and silly superstition."

"That's a lot of change you got there, mister." Startled, Dan glanced up to see that the stranger had moved noiselessly from his table and was now standing menacingly close.

"Oh, not so much," Dan replied slowly. His and the stranger's eyes were locked in a duel—Dan's eyes questioning and alert, the stranger's eyes ruthless and bright. Still trying to hold his gaze, Dan let his hand drop slowly below the counter, his fingers touching a drawer where he kept a revolver.

"That's enough," the man suddenly shouted. He crashed the side of a rigid palm down on Dan's forearm; a gun quickly appeared in the other hand, Dan winced in pain.

"How dare you strike and rob a hard-working man!" Della snapped, all of her feminine protective instincts aroused and anger overcoming caution. Long ago disappointed by Dan's failure to ask her for a date when she first came to work in his restaurant, she had accepted her failure and pushed her affection for him into the background. Although she knew she was no raving beauty, she was young and pretty in a wholesome way. Now every bit of repressed love for him came furiously to the surface.

Disregarding the gun, she leaned over and slapped the stranger as hard as she could. Dan reached for the gun at the same time. With a shove the stranger sent Della crashing back against the wall and then jammed the gun against Dan, who was white with anger, not for himself but for Della's treatment.

"Think you're smart, don't you?" the man sneered. "Is the cute blonde your wife?"

"No, and she's none of your business."

"Pretty cute waitress. I'd like to pay her more attention but I'm in a hurry this time. So just hand me all the money in the cash register—and fast, mister. Remember, no funny business this time either."

Jamming the money into his large coat pockets, the man walked backwards to the door, quickly leaped into a car at the curb and disappeared around the corner.

"Did he hurt you, Della?" Dan demanded anxiously.

"Just knocked the breath out of me. Are you all right?"

Looking at each other with concern, they both were suddenly swept with a feeling of trust and comradeship and something else that had not existed before.

"We'd better call the police right away," Della said, wrenching herself back to the present with an effort.

"I'm afraid we won't stand a chance of catching him. I didn't get the car license because it was dark." Dan picked up the phone and gave detailed descriptions to the police.

When he finished, he turned to her. "Can I drive you home tonight? You must feel pretty nervous."

"Thank you," she replied with lowered eyes. She knew they both felt this night was different from the other nights he had casually dropped her off at her home. On the drive, they talked hesitatingly and then more freely, and she came to the amazing discovery he was very shy underneath his calm poised exterior.

She was almost glad the hold-up had occurred because it had brought them together.

The next morning when she reported to work, they smiled at each other with the same friendly and understanding look and almost missed seeing Pat, the neighborhood cop, who greeted them cheerfully from the door.

"Say, Dan, can you come down to the station to identify a man we picked up who answered your description?"

"Well, h-h-how did you find him?"

"We watched restaurants and shops in this area. Then we got a report a man had bought a new suit of clothes and paid for it with some of those foreign and Indian head pennies you mentioned. I guess he didn't even notice he had them."

"Well, I'll be," Dan drawled in amazement. He looked at Della for a long moment and then laughed. "I think those coins really did make me a lucky man!" Pat failed to understand the unspoken little joke that passed between the two.

Minimum teaching  
1955-56 is 198

REGINA.—The number of teaching days for the academic year 1955-1956 for Saskatchewan's public, separate, and high schools has been set at 198.

A school will qualify for the full operational grant only if it is in operation for the minimum number of days or more. The minister of Education sets the number of teaching days each year under the authority of the School Act.

The minimum number of teaching days for year 1954-1955 was also 198.

Ether is produced by distillation of alcohol with sulphuric acid.

## THE TILLERS

Funny and  
Otherwise

"I don't know whether I ought to recognize him or not. Our acquaintance at the seaside was very slight."

"But you promised to marry him, didn't you?"

"Yes, but that was all."

The doctor was examining the strapping young recruit, when he asked the routine question. "How old are you?"

"Thirty-two," answered the boy, his pink cheeks glowing.

"Are you sure?"

"Of course I'm sure. Maw told me when I was four and I been adding a year at plowing time ever since."

The doctor thought a moment. "Spring plowing or fall plowing?"

The boy looked startled, then broke into a broad grin. "You know, I thought I was gittin' old too darn fast!"

The little man was pushing his cart through the crowded market. "Coming through," he called merrily. No one moved. "Gangway," he shouted. A few men moved.

Ruefully he surveyed the situation, and then smiled as a bright idea struck him.

"Watch your nylons," he warned. The women scattered like dust in the wind.

Living dangerously has been defined as having the sofa upholstered while the children are under 12.

The old man, one the oldest citizens of the town, stepped into the barber chair to celebrate his birthday with a haircut. The barber was unaware of the occasion until the end of the clipping session when the customer said, "Today is my birthday."

"Congratulations," answered the barber. "I hope I can give you a haircut on your hundredth birthday."

His aged patron stared the barber with a steady gaze.

"Maybe you can," said the ancient one, "you look pretty healthy."

The boss returned from lunch in a good humor, and called in the whole staff to listen to a couple of jokes he had picked up. Everybody but one girl laughed uproariously.

"What's the matter?"

grumbled the boss. "Haven't you a sense of humor?"

"I don't have to laugh," said the girl. "I'm leaving on Friday, anyhow."

Get Winter Fair  
forms in early

REGINA. — C. E. Beveridge, Saskatchewan Livestock Commissioner and secretary of the Saskatchewan Livestock Board, has made public regulations regarding the sending of livestock to the Royal Agricultural Winter Fair in Toronto next November.

The regulations were formulated as a result of a meeting of a committee consisting of the presidents of the different livestock associations in the province, the director of the Animal Industry branch of the department of Agriculture and the Livestock Commissioner.

Each association or breed club has appointed a selection committee and the commissioner urges those who feel they have stock suitable for the fair to get their nomination forms returned early so the selection committee will have a chance to view the animals.

Further information may be obtained from the Commissioner at the department of Agriculture, Regina.

## Time is important

Cancer is one of the serious diseases that can often be controlled and frequently cured if it is diagnosed and treated in time. Anyone who suspects that he has any symptoms of this disease should consult his doctor as early as possible. Early treatment may effect a cure or, if there are no signs of the disease, it will help the worried person to regain peace of mind.

Mothers' allowance scheme  
broadened, amount boosted

REGINA.—Mothers' allowances in Saskatchewan have been increased by \$5 per month and in conjunction with the increase, certain amendments to the Mothers' Allowance regulations have also been made, Social Welfare minister J. H. Sturdy has announced.

Mr. Sturdy that a regulation change regarding dependent children over 16 years now enables the mother to receive the allowance for the child during the months of July and August and until the end of the school term in which he is 18 as long as he continues at school. This is to enable children to obtain health and dental services while they are not in classes during the summer holiday. Mr. Sturdy urges parents to encourage their children to take advantage of educational opportunities for more adequate preparation for life.

Mr. Sturdy also stated that in cases of desertion, a court order for maintenance against the husband, if unpaid after all possible action has been taken to enforce it, may be declared uncollectible by the program director in charge of Mothers' Allowance. Formerly, a maintenance order, whether paid or not, was considered income to the mother with the result that she may not have been eligible for the maximum allowance.

Mothers with dependent children whose husbands are confined to a sanatorium or a nursing home in the province will now receive an allowance on their behalf. Mr. Sturdy suggested that a mother could use her husband's portion of the allowance for the purchase of comforts for him.

In cases of incapacitation of the husband the cost of the initial medical examination will now be

paid by the province. This will result in more adequate medical information from which the rehabilitation potential of the husband may be determined. If the husband is certified for rehabilitation, the mother and children will receive Mothers' Allowance benefits during the exploration and rehabilitation period.

The \$5 increase and new regulations became effective April 1 of this year. The first increased cheque was mailed out on May first.

## Salad week

Salads are good all the year around but for one week in the year there is a special reminder that a dish of raw vegetables, made up attractively and with plenty of variety, will add much to lunch or dinner as a main dish. In addition to lettuce, celery, boiled potatoes and the rest of the traditional salad material, try using other kinds—raw asparagus tips, diced raw turnip, finely shredded cabbage, green peppers and any other combination that will add flavor and color.

## MOVING UP

Current forecasts point to Canada, by 1965, being the world's fourth greatest iron ore producer.

Only the adult males are truly lightning bugs; females are lightless and wingless. Therefore, like the larvae, they are called glow-worms.

## FRUIT CREAM

2½ tablespoons BENSON'S or CANADA Corn Starch  
¼ cup granulated sugar  
Few grains salt  
1½ cups (10 oz.) canned fruit juice  
(apple, pineapple or blended)  
1 egg yolk  
½ tablespoon butter  
1 egg white  
1 tablespoon granulated sugar

COMBINE BENSON'S or CANADA Corn Starch, sugar and salt in saucepan.

STIR in ¼ cup fruit juice gradually; mix until smooth. ADD egg yolk and mix well together until smooth; add remaining fruit juice mixing well.

COOK, stirring constantly, over medium heat until mixture is smoothly thickened and comes to a boil.

BOIL 1 minute, stirring constantly.

REMOVE from heat, add butter; cool, stirring occasionally.

BEAT egg white until stiff but not dry; gradually beat in sugar.

CONTINUE beating until mixture stands in stiff peaks.

FOLD lightly into cool mixture; combine well.

POUR into dessert dishes; chill before serving.

YIELD: 4 servings.

## HERE AND THERE

Mr and Mrs. A. Horn returned from Regina where they visited their son Thomas, who has been seriously ill for several weeks. He is now much improved in health.

Thomas is a Sub-Inspector of the R.C.M.P. and is in charge of the Regina Division.

The Gleichen and district students attending the University of Alberta were successful in passing their examinations, namely:

Miss Ann Koefoed, Ronnie Hayes, D. Haskayne, Russell Smith and Dale Hunter. Dale has finished his course in pharmacy.

The members of the Women's Auxiliary to the Canadian Legion held a bake sale and strawberry

short cake and afternoon tea in the Legion Hall Saturday afternoon. The affair was very well attended.

Mr. and Mrs. Al Wilson and Mrs. Crawford went to Bymore during the weekend.

Mrs. Hederson and son Scott of Lethbridge spent several days in town last week visiting Mrs. Henderson's parents Mr. and Mrs. W. Cook.

Next Wednesday is election day. To date very little interest has been shown in the election. It looks as if political meetings are a thing of the past since very few if any have been held. The main thing is to get out and vote next Wednesday.

Mrs. K. Buxton has returned home from the hospital much improved in health. She was thrown from a horse and received injuries to her back.

Mrs. C. McKay left last week for Ireland to visit relatives. While overseas she will visit her son Frank who sings with an opera company.

ATTEND "FAIRS" AND  
"FIELD DAYS"

During the next two or three months, many Field Days and Fairs will be held throughout Western Canada. Attend your local Field Days this year and see the latest agricultural practices demonstrated right in your own district. Above all, support your local Fair.

**Field Days.** The Experimental Farms, through their Illustration Stations, will be holding Field Days in various districts where improved farm practices will be demonstrated under local conditions. Provincial departments of agriculture will be holding various types of Field Days both in the country, and at the Agricultural Schools. Attendance at these events gives farmers an opportunity to obtain up-to-date practical information resulting from research and demonstrations. Agriculture is developing at a tremendous pace these days, and competition on world markets for farm products is increasing. It is the efficient farmer who keeps abreast of modern farm practices who will win out in the end.

**Demonstration Plots.** Each year, about 100 Field Crop Variety plots, which include the latest varieties of wheat, oats, barley and flax, are planted and cared for by Line Elevator Agents throughout Western Canada. Farmers, 4-H Club members, and others are cordially invited to inspect these plots and compare the performance of the different varieties in their own district. See the local elevator agent in charge.

**Country Fairs.** The Country Fair is too often considered just a place to go for entertainment. True, this is important, but it need not occupy all of the time spent at the Fair. If farmers realized the amount of time, effort and money that goes into making a country Fair an educational event, we feel sure they would make a greater effort to visit the various displays and exhibits. Patronize your local Fair. After all, it is your Fair. Besides, your Agricultural Society deserves your fullest support.

WE'RE READY TO  
FORM YOUR  
NEXT GOVERNMENT

The Liberal Party has nominated 53 candidates—the finest group in Alberta's history—under the distinguished leadership of J. Harper Prowse, M.L.A. They pledge above all an honest and responsible administration . . . a government in which all Albertans can take pride.

MAKE SURE YOUR CONSTITU-  
ENCY IS REPRESENTED IN THE  
NEXT GOVERNMENT . . . BY SUP-  
PORTING YOUR LIBERAL CANDI-  
DATE.

## Your Liberal Government Will

Appoint Judicial Royal Commission to investigate Treasury Branch loans and any other government contracts involving Social Credit Cabinet Ministers and M.L.A.'s.

Lower municipal taxes by assuming a larger share of the costs of education and secondary and local roads.

Finance the entire cost of rural electrification systems with provincial funds. Provide a program similar to the Veterans Land Act to establish young people on farms.

Legalize the use of purple gas in all farm vehicles.

Build roads that will stand up.

Raise standards of education and teacher training.

Provide scholarship funds to enable young Albertans to attend agricultural schools, take technical training, or attend university.

Pay \$50.00 Jubilee Grant without a means test to all pensioners, including W.V.A.
